

Applauding the 2013 ANF Scholars

The American Nurses Foundation (ANF) applauds the 2013 Nursing Research Grants (NRG) recipients. This year, ANF awarded over \$185,300 to these nurse researchers who work to transform the nation's health is at the heart of ANF's mission. ANF is grateful for the generosity of supporters over the last 58 years who have made it possible to award over \$4 million to more than 1,000 beginning and experienced nurse researchers.
